Block Piecing

Refer to the "Curved Piecing" technique on page 79. Join the A's and B's as shown to make the block background.

To fussy-cut the center circle from a large-scale print, make a plastic template for C.

Fold the block in half diagonally both ways. Prepare C for turned-edge applique. Use the creases and applique placement diagram as guides to center C on the block. The stitch diagrams are on page 81. Use monofilament thread and a blind stitch to applique the circle in place to complete the block. ■
