

Holiday Tree Ornaments
by Debby Kratovil

Transfer template to freezer paper and cut out.

DOVE:

Cut a 4" x 5" rectangle of both front and back fabrics. Apply fusible webbing to the wrong side of each fabric. Allow to cool; peel off.

HOLIDAY HEART/LOVE

Cut fabrics, webbing, etc to 5" x 5"

Fuse a piece of thin batting between both fabric rectangles (sandwich it on the sides that have the fusible webbing). Iron the Dove or Heart template to one of the fabric sides. Cut out all layers at once.

Stitch outer edges using a zig zag machine stitch and contrasting thread. Practice on scraps to get the stitch length and width you desire.

Cut a piece of ribbon or cording 10" long. Fold in half and knot the ends (see sample picture). Attach to ornament using a small stitch to secure.
