Fredonia Oak Leaf Whole Block
Finished Size: 24" x 24"

Step 1.

Transfer template markings to 21" freezer paper square folded into fourths. (You only need to transfer to one fourth of the paper.) Align template markings as described in written instructions. Cut out this shape (just like a snowflake from grade school!) - cutting through all four layers.

21" square freezer paper folded into fourths

Full size freezer paper Leaf Template

Step 2.

Iron freezer paper to RIGHT side of 22" square of prepared fabric and cut out. For hand appliqué, add 3/16" seam allowance all around. For machine appliqué, pre-fuse fabric with fusible web BEFORE cutting out the full size Leaf Template.

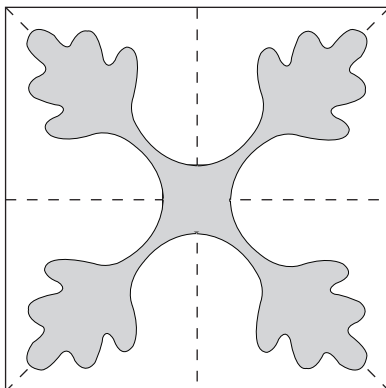

Freezer paper template ironed to RIGHT side of red fabric

Step 3. Cut a 24-1/2" square of background fabric and center the appliqué patch on top. Finger pressing the centers (horizontal, vertical) helps with placement. Fuse in place.

Step 4. Appliqué using your favorite method. I used a matching thread and a narrow machine zigzag stitch.

24-1/2" cream background square

Center red Leaf Unit first

Add green leaves as shown

Green Leaf Template
(cut separately)

Green Leaf Template
(cut separately)

Fredonia Oak Leaf Whole Block
Finished Size: 24" x 24"

Add 1/4" - 3/16" turn under allowances
for traditional applique.

No turn under allowances needed
for raw edge applique.

Cut Leaf Template as a SINGLE piece
from a 21" square of freezer paper.

8 green leaves are cut separately.
