

# QUILTER'S BLOCK-A-DAY CALENDAR COMPANION CD

## **Test Block**

Test your printer settings using this block. When you select Print, look for the Shrink Page to Fit check box. UNSELECT this box. You *do not* want what's on the page to shrink. After you have printed this simple 4" block, measure it both vertically and horizontally to check that it is indeed 4" x 4". All printers are different, and accurate templates are crucial to an accurately sized finished block.

You must be using version 5.0 or higher of Adobe Reader software for this page to display correctly.
